

DOES YOHO LAKE NEED AN ASSOCIATION???

Does It Matter???

Do You Care???

The current executive is diminishing. We do not have a President or Vice President.

If no one steps up to take on roles and volunteer to organize activities, we will no longer have an association.

- We currently have NO ONE to do the Fun Days / Welcome package / Fireworks.
- We appreciated those that turned out at this year's road clean-up, but the low number of participants was very discouraging. If there is no association, will anyone do it in future?
- The septic pump-out program was successful this past year but, in future if there is no association, who will organize it?
- In the past, as a non-profit organization, we have been able to obtain grants for events and items such as a contribution to Fun Days and fencing and shrubs for shoreline restoration / geese deterrence. If there is no association in future, grants may not be possible.
- YLA executive members helped to establish our emergency warming centre by working with Scouts Canada on location and with Hanwell Community and the Provincial government on logistics and training. Those individuals are still willing to lead /participate if the need arises, but there is also a role for the organization to play.

Who will represent Yoho Lake

- with government initiatives like the septic system study?
- with the NB Alliance of Lake Associations for funding for lake monitoring equipment?
- on research studies to have our lake looked at re: future healthy lake initiatives?
- with Scouts Canada?

If you care, PLEASE attend a public consultation with summer and year-long residents of Yoho Lake:

Where: **YOHO LAKE SCOUT LODGE**

When: **TUESDAY, JUNE 27, 2023**

Time: **7 pm**

We hope to see you there.
